

In accordance with our mission to engage in strategic preservation of the native Flint Hills ecology, Prairiewood encompasses 600 acres of land under its stewardship. We invite all our guests to enjoy this stunning landscape by venturing into its various corners and enchanted nooks. Enjoy Prairiewood's abundant wildlife and livestock, but maintain a respectful distance from both. Please remember to never litter, to leave the prairie better than you found it, and to stop and smell the flowers!

Prairiewood is located just one mile west of Manhattan, Kansas.

Support the Prairie!

Prairiewood Connect is a nonprofit that works in partnership with Prairiewood to provide visitors first-hand experiences with the tallgrass prairie that build lasting connections with it.
